 1. 2nd Draft to be delivered once system live
 2. Updated community Notification process (yard signage to inform neighbors)
 3. Updated application to check box responses based on suggestion from Mrs. Lucas and based on the lack of responses for the East Macon Loop survey when prompted to write/type in answers.
 4. Update Flow Chart after Conversations with Bike Walk Savannah
4. Complete Streets Committee serves to communicate progress to the public.
 1. I think we should create **Community Progress Reports** that help all go into the Annual Report due every 2 years.
 2. I think we serve as a resource for Neighborhood groups when it comes to Main Street Planning. Neighborhood/Community Planning for County Owned Streets
 1. As the Traffic Safety Manager, I am asked to go to community/ neighborhood meetings. They want to actively work with a committee to help them with planning before they propose large community scale traffic calming plan to PSRB. (Example, Planning and Zoning offer a pre-development meeting before the developer takes their idea to the zoning commission to be voted on for approval)
 1. We don’t have a budget, but PSRB does. We can help communities look at alternative

interventions that can be value engineered to scale before they come before the PSRB who can approve or deny funding the project request.

2. This would be most helpful in underrepresented communities who have a broad range of concerns regarding complete streets but may not have direct access to information necessary to advocate properly for their concerns.
